Achieving Excellence Together

Pupil Premium Strategy 2020-23

Respect, Aspiration, Perseverance

Context for the Pupil Premium Strategy 2020-21

Our disadvantaged students have consistently been outperformed by our non-disadvantaged students over the past few years. This trend will continue without significant intervention. There is a moral imperative to ensure that these students have the same life chances as their peers. This document sets out the strategy for next three years to address this underperformance and aims to close the gap between disadvantaged and non-disadvantaged students whilst continuing to raise progress and performance for all.

Challenges

• In-school attainment gaps on entry in English and Mathematics

	Count	English		Mathematics		Average	
	Dis	Dis	Other	Dis	Other	Dis	Other
Y7	57 (170)	No prior data due to national school closures					
Y8	74 (193)	101.9	103.5	100.6	103.4	101.2	103.3
Y9	59 (172)	101.6	104.8	99.7	102.6	100.6	103.7
Y10	49 (167)	102.4	104.6	100.3	103.3	101.4	103.8
Y11	53 (157)	100.2	104.5	99.3	102.8	99.8	103.6

- Attendance of Pupil Premium students (92.8% in 2019/20) does not match that of other students in the school (95.9% in 2019/20).
- Raising aspirations of Pupil Premium students by having the same high expectations as other students in the school.
- Ensuring Pupil Premium students have strong learning habits, including home learning.
- Building strong relationships with families.
- Disadvantaged students have disproportionately not be making as much progress as other students at The Purbeck School.
 - o In 2018-19, disadvantaged students had an overall P8 figure of -0.19 compared to a P8 figure for non-disadvantaged of 0.4.
 - o In 2017-18, disadvantaged students had an overall P8 figure of -0.07 compared to a P8 figure for non-disadvantaged of 0.5.
 - o In 2016-17, disadvantaged students had an overall P8 figure of -0.26 compared to a P8 figure for non-disadvantaged of 0.5.
- Pupil Premium students have disproportionately not be making as much progress as other students at The Purbeck School.
 - o In 2018-19, Pupil Premium students had an overall P8 figure of 0.05 compared to a P8 figure for non-Pupil Premium of 0.4.
 - o In 2017-18, Pupil Premium students had an overall P8 figure of 0.14 compared to a P8 figure for non-Pupil Premium of 0.55.
 - o In 2016-17, Pupil Premium students had an overall P8 figure of -0.02 compared to a P8 figure for non-Pupil Premium of 0.53.

Core Principles: How are we spending the Pupil Premium Grant?

At The Purbeck School, we have high expectations of ALL students. We draw on research evidence (such as the Education Endowment Foundation and the Sutton Trust toolkit) and evidence from our own experience to allocate funding to activities that are most likely to maximise achievement. However, we never confuse eligibility for the Pupil Premium with low ability, and focus on supporting our disadvantaged students to achieve the highest levels.

Our Pupil Premium spend is divided into the following four priority areas:

1. Teaching for Mastery and the Power of Assessment and Feedback

Teaching for Mastery is a commitment that virtually *all students can learn all important academic knowledge* to a level of excellence if allowed the *right amount of time to learn* and *provided with the appropriate conditions to learn*.

We understand the importance of ensuring that all teaching meets the needs of each learner, rather than relying on interventions to compensate. We are developing and implementing a Mastery model of teaching, learning and assessment. In most subjects, units of work begin with a diagnostic pre-assessment with pre-teaching to ensure that all students, before the teaching of a new idea begins, have the foundations for new learning. Teaching is responsive to the needs of students through continuous checking for understanding. High quality corrective instruction is provided to remedy gaps, errors and misconceptions in knowledge and skills. At the end of all units of work, post assessments provide opportunities for students to show what they have learned well and what they need to develop. Senior leaders, middle leaders and teachers across the school are continuously developing their curriculum and their classroom practice, by linking findings from cognitive science and other research.

2. Highly tailored interventions and more time

Diagnostic assessments identify where basic skills gaps exist among students as soon as they arrive in Y7, through CAT4 assessments, reading tests and dyslexia screening. Quality first classroom teaching helps address and close these gaps. Students who have a reading age 12 months or more below their chronological age are provided an intervention appropriate from our Personalised Literacy Pathways, which includes IXL and Lexonic. Students who have a KS2 standardised score in Maths less than 90 are assigned to our Nurture Maths classes and receive an additional two lessons per cycle.

3. Minimising barriers to achievement

We have thought carefully about what barriers to learning our students are experiencing, and how to remove or, at least, minimise them. As part of the Pupil Premium Guarantee, students will have access to a range of mentors to enable them to make progress with their learning. We have employed a Behaviour Management Support Worker, an Attendance Officer and a Mental Health Councillor to provide well-targeted support to improve behaviour and attendance, and to support student's mental wellbeing. Our Learning Mentors will strengthen links with families where these are barriers to a student's learning.

4. Raising aspirations and broadening experiences

Our priority is to support every child fulfil their potential, encourage all students to raise aspirations, and to progress onto higher education or into a career of their choice. We support our disadvantaged students financially by subsidising costs for trips and extracurricular opportunities. The Careers Information, Advice & Guidance Education programme at The Purbeck School aims to encourage all students to develop skills that will enable them to make the transition into further or higher education, apprenticeships and accredited training in employment. It aims to offer objective and impartial advice from a range of talks, activities and individual interviews. All students are offered a careers appointment to discuss their next steps, whether this is thinking about GCSE options, Post16 education or beyond.

Breakdown of planned expenditure

Intervention/Support	Action	Total Funds: £234,745	Outcome/Impact/Monitoring				
Raising attainment acro	Raising attainment across the school (Inc. Teaching for Mastery)						
House Leader House Leaders to coordinate the attendance strategy with the attendance officer; academically mentor appropriate students for attainment; coordinate with tutors.		£16,500	PP attendance to show a rise and a reduction in the number of students who are persistently absent and a rise in the P8 score for PP students.				
Attendance Officer	Improve the attendance of PP students across all year groups; this will have a positive impact on exam results.	£44,500	PP attendance to show a rise and a reduction in the number of students who are persistently absent.				
Highly tailored interven	tions and more time						
Specialist Numeracy and Literacy Support	Support students who are at risk of not achieving their minimum estimated grade in English and Maths by assigning additional lessons to their timetables. Y7-9 English: Three extra lessons per cycle Y7-9 Maths: Two extra lessons per cycle	£12,000	Ensure that Y7-9 students are prepared for their GCSE programme of study and are on or above track for their minimum estimated grade. GCSE students to be on track for a positive P8 for English and Maths – monitored by SLT after each tracking point.				
Study Plus	All PP students have access to our Study Plus after school homework club. This includes laptops with online access, refreshments and specialist teacher support.	£2,500	Greater opportunity for students to complete home learning with support.				
Lexonic Intervention lessons	Raising reading levels of Y7-10 students identified improving literacy to impact across the curriculum.	£2,400	Improved levels of literacy. Reviewed by SENCO and Literacy Lead – individual case studies to provide evidence of progress.				
IXL English and Maths	Provide deliberate practice of individual English and Maths skills.	£2,100	Improved levels of literacy or numeracy. Reviewed by SENCO – individual case studies to provide evidence of progress.				
Exam concessions assessment	Use an external assessor to identify students that may require access arrangements for GCSE examinations.	£1,700	Ensure that all students that may require exam concessions are identified and assessed.				
Minimising barriers to a	achievement						
Inclusion Lead	Coordinate all pastoral and behavioural interventions, using our tiered approach, so that all students' needs are supported. This may include working with students experiencing behavioural barriers to learning, placed on the PIP process (see behaviour policy).	£36,000	Reduction in the number of FTE for PP students and number of students gaining more than one FTE.				
Delivery of core interventions by learning mentors	ELSA support, for Y7 students, ASD intervention group, I Have Never programme and Compass course, for Y8-11 students, delivered to ensure that they have a personalised programme of support to meet their individual needs, Inc. SEMH and speech and language.	£21,000	Student progress to be reviewed by Inclusion Lead and individual case studies to show progress.				

Mental Health Councillor	To formulate a staged programme of intervention to ensure that students remain in school and have a healthy and happy approach to school.	£33,000	Staged programme to be in place – case studies to show impact on the student well being
LAC Mentoring	Mentor LAC and Post-LAC students with the objectives of improving performance by supporting organisation, relationships, home learning and attendance.	£15,000	Educational achievement of looked-after children are promoted. Gaps in learning and (in many cases) the emotional impact of their experiences, are reduced.
Service child liaison officer	Point of contact for parents of service children to offer pastoral support during challenging times and to help mitigate the negative impact of family mobility or parental deployment.	£18,000	Service children engage in school and build a sense of a wider community and understanding of the role their service parent plays.
Late Bus	Provide a late bus three nights each week so that students can attend after school academic interventions, home learning club or enrichment activities.	£17,000	Improved attendance at school academic interventions, home learning club or enrichment activities.
Raising aspirations an	d broadening experiences		
Careers Advice, Mentoring and Training	All PP students have access to personalised careers advice using a school careers mentor.	£14,400	PP students leave Y11 or Y13 with a full time education, training placement or job.
PP Guarantee	Ensuring all PP students have access to full school uniform; educational equipment; trips	£10,000	Ensuring that all PP students have equal access to educational opportunities required for them to succeed

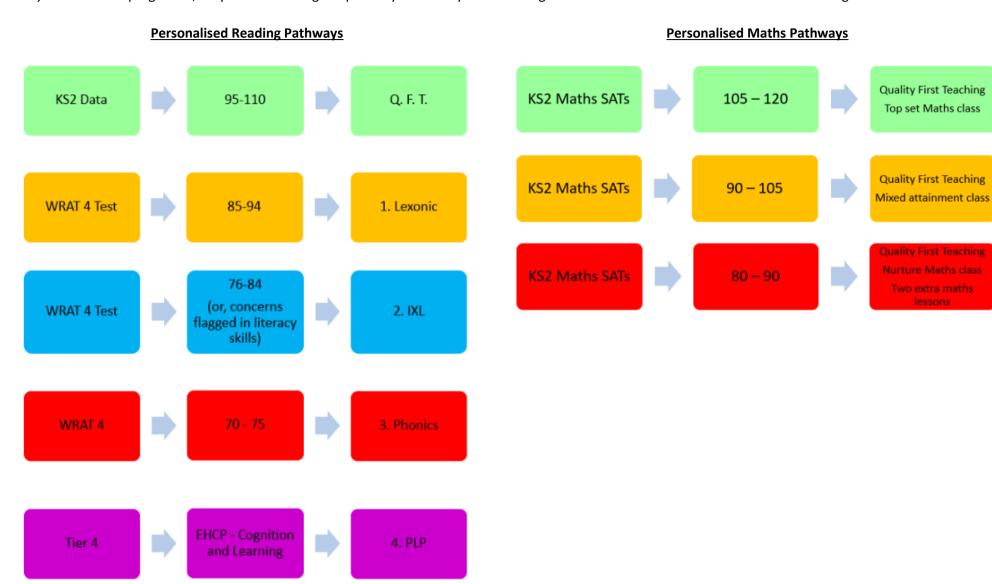

Raising attainment across the school (Inc. Teaching for Mastery) – Academic Strategy Overview

Allowed the amount right amount of time to learn; Provided with the agroprojate conditions to learn. Formative and Summative Assessment Provided with the agroprojate conditions to learn.	Teaching for Mastery and the power	All teachers have a commitment that virtually all students can learn all important academic knowledge to a level of excellence if				
Provided with the appropriate conditions to learn.						
Aft The Purbeck School, our core expectations are that curriculum and assessment will Assessment Assessment Se based on or <u>Justian Expectations</u> for all students. Be based on developing the <u>key knowledge and skills</u> required for success at the end of Y11. Be based on gegular formative assessment that lidentifies students' strengths and weaknesses, identifies where appropriate strategic intervention is required and allows all students to grow and be successful. Involve <u>periodic summative assessment</u> that lidentifies students' strengths and weaknesses, identifies where appropriate strategic intervention is required and allows all students to grow and be successful. Involve <u>periodic summative assessment</u> to support the regular formative feedback. Have consistent principles to be used across all subjects, but the flexibility to be suitable for all subjects. Be simple and easy to understand – for teachers, parents and students. At the Purbeck School, we collect data on academic progress is collect data as exademic progress as statedance and behaviour. This data is used in a strategic way to support student development and improve teaching and learning. Student Progress At the Purbeck School, we collect data on academic progress is collected three times across the year. From Y7-11, progress is tracked directly against GCSE minimum estimated grades. From Y7-11, progress is tracked directly against GCSE minimum estimated grades. From Y7-11, progress is tracked directly against GCSE minimum estimated grades. In Maths, as many students with a KS2 Maths score less than 100 are assigned to mixed attainment classes. Educational research shows that mixed attainment teaching can raise aspirations and expectations of students who idin't meet age related expectations at KS2. A small number of students, with standardised scores of approximately 85 or less are assigned to a Maths Nurture class. Home Learning At The Purbeck School, we believe completing home learning is essential to the academic success of all students. All Y7-9 students undertake 20mins of reading, 20mins of maths and 20mins of self-quizzing for home learning. In Maths, students use Times Tables Rock Stars and Hegarty Maths. Those identified as needing further support are invited to attend the Home Learning club after school. All Y10-11 students are provided with subject specific tasks that gives students the opportunity to extend their learning and to reinforce what has been learned in class. Specialist English and Maths support To support students who are at risk of not achieving their minimum estimated grade in English and Maths, additional lessons are assigned to their timetables. In keeping with our mastery principles, the objective is to provide more time for students to learn well. In Y10-11, some students will receive three extra English lessons per cycle and/or two extra Maths lessons per cycle. School Leads / Core Offer Interventions English, Maths, Science, Languages and Humanities HODs identify disadvantaged students who are below track and assign them to their Core Offer interventions. These interventions focus on specific knowledge and skills from question level analysis to close the gap with their peers. DSEN On entry to The Purbeck Schoo						
the idea that 'setting has the effect of promoting social class differences rather than eroding them' <i>Sheila Riddell</i> . In Maths, as many students with a K52 Maths score less than 100 are assigned to mixed attainment classes. Educational research shows that mixed attainment teaching can raise aspirations and expectations of students who didn't meet age related expectations at KS2. Highly Tailored Interventions and More Time

Based on students KS2 prior attainment and diagnostic assessments, conducted at the start of each year and each unit of work, students are placed on a personalised learning pathway. As a student progresses, they will work along the pathways until they are achieving on or above track with their minimum estimated grade.

Two extra maths

Minimising Barriers to Achievement – Academic and Pastoral Tiered Support Structure

Minimising Barriers to Achievement – Attendance Strategy

Objectives	Action to be taken	Timeframe	Success Criteria	Lead
Ensuring a whole	MLN to be designated specifically to oversee attendance with specific reference to <u>disadvantaged</u> students	All year	MLN leads on	MLN
school focus on	Key focus of whole schools SDP and HL RAD		attendance; Appraisal	SLT
attendance	HL's to have a specific focus on attendance as a key performance indicator		for HL in place; Tutors	
	All teaching staff to have a responsibility for attendance and ensuring registers are kept up to date		regularly highlighting	
	Regular focus and robust challenge from Governors		attendance and	
	Regular focus and robust challenge through attendance report at SLT		mentoring students	
Identification of	MLN to identify priority students, who have attendance issues (focus on disadvantaged)	Half term	Attendance priority list	MLN
key students	HL's to work with MLN to identify key students		identified and	HL
	Tutors to identify through tutor meetings/tutor time		distributed to	CMS
	Key students must be cross referenced with the global mark sheet		SLT/HLs/Tutors;	
	MLN to update key students being targeted every half term		Fortnightly meetings	
	MLN to track attendance data once per fortnight, with HL's		HL/MLN/CMS	
Implementing the	MLN to ensure school attendance policy is followed (and updated) – letters/meetings/home visits/focus on	All year	Attendance policy in	MLN
strategy for	PA		place; Half termly	HL
improvement	Ensure first day recording and SIMS registering is accurate (MWD/MLN)		attendance reports;	Tutors
	Y7-9 tutors to ensure students record attendance data in KOs once a cycle		Governors minutes	
	Tutors to mentor, meeting with students and parents during assembly and communication fortnight, setting specific attendance targets			
	Disadvantaged parents to be focussed and priority called for parents evening (CMS/Nest), with meetings with MLN			
	Incentivise attendance using Y11 prom and celebration assemblies (100% certificates)			
	Regular updates on the website / digital signage around the school (NMH)			
	Embed the new SIMS Parent app to regular communicate student attendance profile			
	Half termly attendance reports to SLT			
	Regular reporting and analysis to Governors in Students Development Committee (standing item on the agenda) (VGY)			
	Attendance data sent to all governors half termly			
	Students and parent voice to be introduced			

$\label{thm:continuous} \textit{The performance indicators for this strategy will be based around minimum figures:}$

- 95%+ for whole school attendance (current 95.3%)
- Below the national average for absence
- For disadvantaged students an improvement on 93%
- A reduction in disadvantaged persistent absenteeism (current 25%)
- Below the national average for persistent absenteeism
